

Senior Home Companions, Inc.

Seniors Helping Seniors™ – Since 1992

Senior Home Companions was founded in Sarasota, Florida in 1992, and is operated by owner, Judy Cuppy. Judy founded the company when she realized there was a need for competent in-home care when her grandmother was recovering from an illness. Senior Home Companions is not a franchise and offers safe and reliable care to a limited number of clients.

There is no deposit required for service. Service can be arranged at 4-hour intervals daily up to 24-hours per day, 7 days per week including holidays. We also offer a reduced rate for overnight care.

Senior Home Companions prides itself on its personal and loving care to its clients. We welcome the opportunity to discuss with you in depth the benefits of Senior Home Companions.

What is Senior Home Companions?

Senior Home Companions is a locally owned and operated agency that provides loving, in-home care. We help people in need of assistance due to illness, injury or aging needs. We pride ourselves on carefully matching our companion/homemakers to meet the special needs of each individual situation.

- Hourly
- Overnight Care
- 24-Hour Care

Senior Home Companions can help your loved one comfortably remain in the home of their choice while affording peace of mind. We understand that this is a major step for most families to allow people into your home. We reference, criminally check, and thoroughly interview each of our companions. They are compassionate, trustworthy, honest, and offer a lifetime of experience and caring.

"When my grandmother reached the age of 99 and needed round-the-clock care, SHC was a godsend. The quality of the care she received was exemplary. Since then, I have referred others to SHC without hesitation. Thanks, SHC."

—Leslie Loftus

What makes Senior Home Companions unique?

Compatibility, continuity of care, and reputation are important to you and to us. During a free consultation in your home, we will evaluate your needs and help you develop an individualized care plan.

After we have a clear understanding of your requirements, we select a caregiver based on your individual needs, interests, and concerns. This careful "matching" of companion to client provides the personal loving touch on which we have built our reputation. We strive to provide continuity of care so that you have the same companion helping you with your needs.

We are able to provide the appropriate amount of companion care needed.

"The kindness and care that you personally and Senior Home Companions have shown to our family has been priceless."
