

What makes Senior Home Companions Unique?

Personalized service – clients have 24 hour contact with our office as we oversee your care. You will deal only with the owner or the Branch Manager who know each client and caregiver. We guarantee coverage for the hours clients have scheduled.

A stellar reputation based on 17 years of fine care - We do not feel that caregiving is a business but a personal relationship.

Locally owned and operated, not a national franchise - We handle a limited number of clients so that we know them and they know us personally.

Our careful matching of caregiver to clients will ensure that clients will have the same caregiver helping them with their needs. Unlike other agencies, we never just send who is available. Many of our caregivers have been with us since the company started.

Our rates are among the most competitive in the area because we do not have to pay franchise fees.

We are very selective in choosing our caregivers and they all have a background in caring for others. Most of our caregivers are middle aged people who can relate well to our clients. Our caregivers are compensated at a higher rate than the other local agencies which attracts a very high caliber of people.
